## Intelligent Versatility AND CUSTOMER EXPLOITATION

Innovation, quality and affordability are the key words behind Auto Campers philosophy. Award winning design, Ford or VW, twin side doors, 4 models, 3 roof options, 2-7 travel seats, 2-4 berths and 1000s of combinations

View some of ours and our customers pictures to give you a taste of lifestyle, opportunity and spontaneity that awaits!

### Q: Where do I start?

A: If your Auto Camper has to successfully cross over to be an everyday vehicle that you're comfortable driving & manoeuvring without hesitation 365 days a year, then a short wheelbase is your best option. However, if internal space for your leisure time is a priority then a long wheelbase should be considered.

### Q: Which roof height is right for me?

A: Lo-Line: Go anywhere affordable option

Hi-Line: Optimum storage, enjoyed all year round, cheaper than a Pop Top

Pop Top: Additional 2 berths, perfect for families

### Q: VW or Ford?

A: The VW has a narrow wheel track which lends itself to street parking. If your priority is commuting, then the Pop Top version will just fit under a 2-meter height barrier.

Transit has been the UK's best-selling van for over 50 years. Transit Custom now brings car like refinement, whilst kinetic design and value offer a price competitive alternative with greater internal space, ideal if your priority is leisure time.

### Q: Diesel or alternative fuel?

A: Alternative fuels are the future for cars; however, an Auto Camper typically needs to cover greater distances, often in areas with limited charging points.

New Euro 6TDCi engines with Dpf filters are the cleanest diesel engines in the world with many advantages including excellent mpg & higher torque that is required for towing.

### Q: Why twin side doors?

A: Four adults can relax with uncompromised leg room & cross ventilation. There can be a sense of connection with the outdoors whilst using the kitchen facilities especially if an optional awning is added.

### Q: Fixed or sliding rock 'n' roll, or a suspended bed?

A: Our intelligently designed bed systems offer unrivalled versatility. Consider your storage requirements. Do you want to decant everything into an awning in order to make enough space for sleeping?

### Q: Which options should I prioritise?

A: Diesel heating will change the space into a welcoming environment. It can be used whilst on the move as well as on location. Consider your lifestyle, opportunity & spontaneity when thinking about bike racks, awnings, outside living ..... Read on to discover more →

Ideal as an everyday vehicle with four travel seat, the Leisure Van's M1 certified mid mount seat simply transposes into a comfortable bed or day bed. Four relax and travel in comfort with ample leg room in front and behind the drivers swivel seat. Twin sliding doors exploit the inside/outside kitchen and provide welcome cross ventilation and a sense of connection between spaces.

# Leisure Van

## Q: WHY CONSIDER THE LEISURE VAN?

**A:** Perfect for a couple to use primarily for themselves as a Camper with 4 travel seats. The fixed mid mounted seat / bed provides generous habitation space and pragmatic boot space including designated storage for cables and silver screens whilst the optional vari-mount sliding seat adds astonishing versatility.

**A:** Twin sliding doors are the Leisure Van's unique design point, offering kitchen facilities both inside and outside. Relax in contoured swivel cab seats with generous leg room and enjoy cross ventilation on a warm summer's night. Alternatively, sit outside and easily grab a chilled beer or glass of pinot grigio from the drawer fridge and enjoy the local sunset.

**FORD CUSTOM LIMITED:** Tailgate, left and right hand side sliding door, body colour coded front bumper, front fog lights, power folding and heated door mirrors, heated windscreen, privacy glass, auto sensing wipers and lights, projector cornering headlights, front and rear parking sensors, DAB Radio with multi function display, heated swivel seats, leather trimmed steering wheel, cruise control, lockable glove box, ABS, ESP, side wind mitigation and roll stability control, reverse camera. Sync 3 including 8" touch screen, 16" alloy wheels, air conditioning, colour coded body pack alarm and high security door locks.

**VW T6 HIGHLINE MODEL:** VW's Highline model is a close comparison to Ford's Limited model including colour coded body mouldings, alloys, air con, cruise control, blue tooth, rear parking sensors, auto lights, fog lights, heated adjustable mirrors and heated windscreen. The 150ps model offers 6 speed manual transmission as standard, whilst the 204ps model offers ultimate performance.

**CONVERSION:** Quality starts with white high gloss, high pressure laminate furniture board; these robust boards are skilfully cut and routed by hand with nylon edge banding mechanically adhered. Both floor and side panels are insulated, whilst slip resistant Altro flooring and stainless steel door trims endure the most extreme of lifestyles. Relax in single, driver and passenger, twin side doors with fixed LH window, RH sliding window, LH third row window, glazed tailgate or barn doors. Space saving tambour doors are quiet on the move and enhance the automotive interior feel. Live independently off grid with a two ring gas hob and associated gas box, stainless steel sink, large under floor fresh and grey water tanks, 115AH leisure battery, 240V hook up, 100W solar panel, 2x 12V and 2x 240V sockets, 50ltr compressor drawer fridge freezer, cab silver screens, black out curtains, LED lighting, large multi position table system and flip up kitchen unit worktops. The M1 certified mid mounted fixed or vari-mount sliding double rear travel seat / bed uniquely reclines into multiple positions incorporating isofix child safety seat anchors, with stowage under for a porta potti. The bed also transforms intelligently into a comfortable day bed to enjoy that all important morning cup of tea.

<b>LO-LINE:</b>	Ford steel roof, panoramic glass roof hatch with silver- screen insulated black out.
<b>POP-TOP:</b>	Reimo front lifting elevating roof inc front spoiler, front window and side screens with curtains.
<b>HI-LINE:</b>	Ford steel roof, full height rear barn doors, LH upper locker, full height RH wardrobe extension, locker over kitchen and over cab locker, 500mm x 500mm roof light complete with black out blind and insect screen.

Vehicles originate from Ford or VW classed as N1 goods carrying vehicles attracting annual road fund taxation of just £260 per annum. In September 2019, the DVLA prohibited any Camper with a Lo-Line or Pop Top roof being classed as a motor caravan, consequently some "van" speed limits apply on specific roads but not motorways.

Auto Campers have a progressive type approval programme that meets all current legislation, IVA type approval is available as a cost option on request.

\*VAT may be zero rated subject to a wheelchair user gaining a genuine benefit, please ask for further information.

The MRV's uniquely engineered suspended, multi height bed and certified M1 floor track system combined with clip in and out optional fold flat seats are just a few of the key elements behind the multi award winning design, making it ideal for dog owners, families, or anyone needing a flexible every day vehicle with unparalleled innovation and capacity.

**Q: WHY CONSIDER AN MRV?**

**A:** The MRV's greatest assets are the suspended bed and four rail floor tracks providing intelligent versatility, combining flexible load space, optional single rear travel seats and the same fixed longitudinal twin side door furniture as the Leisure Van.

**A:** Perfect for a day out, or wild camping for weeks independently off the grid, made easy by way of the large fresh and waste water tanks, 2 burner gas hob and gas bottle, Porta potti and designated leisure battery including 100W solar panel.

**FORD CUSTOM LIMITED:** Tailgate, left and right hand side sliding door, body colour coded front bumper, front fog lights, power folding and heated door mirrors, heated windscreen, privacy glass, auto sensing wipers and lights, projector cornering headlights, front and rear parking sensors, DAB Radio with multi function display, heated swivel seats, leather trimmed steering wheel, cruise control, lockable glove box, ABS, ESP, side wind mitigation and roll stability control, reverse camera. Sync 3 including 8" touch screen, 16" alloy wheels, air conditioning, colour coded body pack and alarm. 130ps or 170ps Euro 6 TDCi manual or automatic transmission.

**VW T6 HIGHLINE MODEL:** VW's Highline model is a close comparison to Ford's Limited model including colour coded body mouldings, alloys, air con, cruise control, blue tooth, rear parking sensors, auto lights, fog lights, heated adjustable mirrors and heated windscreen. The 150ps model offers 6 speed manual transmission as standard, whilst the 204ps model offers ultimate performance.

**CONVERSION:** Single drivers and passenger swivel cab seats, Bonded M1 certified 4 rail floor track system, LH fixed 2nd row side window, twin side doors with sliding RH window, LH third row window, glazed tailgate or rear barn doors. High gloss white furniture, complete with bespoke alloy extrusion, edge banded trim, tambour doors, 2 ring gas hob and associated gas box, stainless steel sink, large under floor fresh and grey water tanks, 115AH leisure battery and 240V hook up, 100W solar panel, 1x 12V and 2x 240V sockets, 50ltr compressor drawer fridge, cab silver screens and black out curtains, LED lighting, large multi position table system and flip up kitchen unit worktop. Multi height suspended bed system which simply extends to create a generous comfortable bed over the load area, also can be set as a double habitation seat or a day bed. Insulated floor topped with heavy duty vinyl, cupboard for portable toilet. The bonded floor allows multiple seat positions, secure mounting points for loads and wheelchair restraint systems. Rubber insert available to keep tracks clean and support interior aesthetics.

**LO-LINE:** Ford steel roof, panoramic glass roof hatch with silver- screen insulated black out.

**POP-TOP:** Reimo front lifting elevating roof inc front spoiler, front window and side screens with curtains.

**HI-LINE:** Ford steel roof, full height rear barn doors, LH upper locker, full height RH wardrobe extension, locker over kitchen and over cab locker, 500mm x 500mm roof light complete with black out blind and insect screen.

The Day van is a true crossover luxury daily drive, plus a versatile Camper, MPV or Van! Based on either VW T6 or Ford Custom, both share the M1 certified 6 rail bonded floor which allows optional single seats on wheelie wheels to simply click in to any position. Optional modular units and an optional multi-height suspended bed can be configured for work, rest & play!

# Day Van Modular Series

**FORD CUSTOM LIMITED:** Tailgate, left and right hand side sliding door, body colour coded front bumper, front fog lights, power folding and heated door mirrors, heated windscreen, privacy glass, auto sensing wipers and lights, projector cornering headlights, front and rear parking sensors, DAB Radio with multi function display, heated swivel seats, leather trimmed steering wheel, cruise control, lockable glove box, ABS, ESP, side wind mitigation and roll stability control, reverse camera. Sync 3 including 8" touch screen, 16" alloy wheels, air conditioning, colour coded body pack and alarm. 130ps or 170ps Euro 6 TDCi manual or automatic transmission.

**VW T6 HIGHLINE MODEL:** VW's Highline model is a close comparison to Ford's Limited model including colour coded body mouldings, alloys, air con, cruise control, blue tooth, rear parking sensors, auto lights, fog lights, heated adjustable mirrors and heated windscreen. The 150ps model offers 6 speed manual transmission as standard, whilst the 204ps model offers ultimate performance.

## Q: SHOULD I CONSIDER THE MRV?

**A:** Both MRV and Day Van models share our innovative suspended bed. The Day van "trumps" the MRV with a 100% clear load space and the option of a full width wider bed, plus up to 7 passenger travel seats. The MRV "trumps" the Day Van when "off grid" with larger water tanks, gas bottle, 2 burner hob, solar panel as standard and furniture providing more efficient designated storage.

## Q: WHICH ROOF HEIGHT IS RIGHT FOR ME?

**A:** This depends if you think with your head or your heart. The Lo-Line is the most affordable and just sneaks under most height barriers. The Pop Top carries the highest premium, but it's your only option if you need 4 berths within the van, plus in the summer the Pop Top gives you the best of both Lo-Line and Hi-Line. The Hi-Line is the most pragmatic roofline giving you insulated comfort from September to April, organised storage, removing "clutter" from your floor and is significantly cheaper than a Pop Top. If 4 berths are only required for occasional summer use, then a drive-a-way awning could be an alternative solution.

**CONVERSION:** Because the Day Van offers hundreds of combinations doesn't mean you need them all at once! Most owners will usually switch between a couple of floor plans in the knowledge they can always add or remove elements in the future or when a specific occasional floor plan is needed.

All Day Vans include, twin side doors and tailgate (unless Hi-Line, rear barn doors) 6 rail M1 certified bonded floor, swivel passenger and driver cab seat, air conditioning, sliding RH 2nd row window, blackout curtains, cab silver screens, suspended bed anchors and reinforced integral rear bed supports, insulation and carpet trimmed, Altro flooring and stainless steel door trims, LED lights, 240V hook up, designated leisure battery and 240V/12V charger, 100W solar panel.

## SB MODEL

The Eco-Line Day Van series is the only Auto Camper available as a conversion on a new or pre-owned Transit. This semi modular Day Van has common fixed furniture and multiple storage solutions and menu pricing for affordability. The RB model (Rock 'n' Roll bed) or an SB (Suspended bed) model each optimises versatility with an open load space, multi-height suspended bed and removeable fold flat seat for 2-7 to travel.

## RB MODEL

Left back: Primary high wardrobe unit. Left front: Primary low locker unit. Middle back: Narrow high open shelf unit. Middle front: Narrow low locker unit. Right back: Rear high corner unit. Right front: Rear low corner unit.

## LO-LINE

## POP-TOP

Eco-line RB

FLOOR PLANS

Eco-line SB

For maximum load area, stow alloy bed frame and cushions vertically. Bed suspends over folded seats or with seats removed to provide versatile and generous load area combinations.

# Day Van Eco-Line Series

The new Eco-Line Day Van series combines many elements of Auto Campers award winning versatile conversions. The cornerstone of this model is affordability and the justification to primarily build on The Ford Custom, however customers can supply their own VW T6 Vans for conversion only as an unadvertised option. (details available on request)

Available on the Transit Custom with three roof heights The Eco-Line Day Van is the only Auto Camper series to offer you the option of a conversion only, built on approved stock or your own Transit Custom (subject to appropriate specification). Alternatively, we can also offer you a one stop completed new build configured to your specification.

Both Eco-Line "RB" (Rock 'n' Roll bed) and "SB" (Suspended bed) specifications include and share: Insulated composite floor with tough Altro vinyl flooring and stainless-steel trims, side insulation, carpet lining, roof lining and table system.

Uniquely the Eco-Line's fixed furniture unit comprises of a 50ltr compressor fridge / freezer, with adjacent kitchen storage behind a tambour door, plus cutlery drawer and a cupboard for a portable toilet. The rear element of the unit is lower and contains your leisure battery, electrics, 2 x 12ltr fresh-water tanks, and gas cylinder box. The purpose of this design originates from the Day Van's popular extra wide bed format, owners can choose between the optional bed infill cushion or the various modular units.

Electrics include dedicated leisure battery, split charging, 240V hook up, consumer unit incorporating MCB & RCD, 240V to 12V charger, 12V zoned LED lighting and 12V/240V sockets. Furniture is matt grey high-pressure laminate poplar wood core board. A glass lidded combination 2 burner hob and sink sits on a slate effect HPL worktop. Standard glazing includes 2nd row RH slider and fixed LH complete with black out curtains & silver screens. Rear doors windows are not included as standard to assist those seeking non domestic applications for business, but can be specified.

For maximum versatility The Eco-Line "SB" (Suspended bed) Day Van model, provides 4 floor sockets to fit optional removeable fold flat seats and a generous proportioned removeable suspended bed that can be set at 2 heights, or removed completely.

The RB (Rock 'n' Roll bed) model provides a fixed mid mount rock 'n' roll seat / bed or an optional Vari-Mount sliding seat which easily converts from travel seats to sleeping mode in seconds. The M1 tested seat has 2 lap and diagonal belts and optional Isofix anchors, plus the seat can be set at multiple recline angles and be set up as a chaise to enjoy your morning cuppa!

<b>LO-LINE:</b>	Original steel roof. (2 berth, most affordable and most accessible for most height barriers).
<b>POP-TOP:</b>	Drive Lodge front lifting elevating roof (4 berths, looks cool with roof down, max internal height for summer).
<b>HI-LINE:</b>	Original H2 steel roof & roof light (Best for storage, optimises every season, 2 berth only).
